Discipline that you mainly operate in. Please choose one of the above.

Dance

What would you like to do that's a little out there? Something that adds another layer to the perception of "what is art?". In essence what we are looking for are "Fringe" arts, in and from any discipline, to add to the solid base of arts that we already have in the county. Phrases, as cliché as they may be, such as "Out of the Box" and "Pushing the Envelope" come to mind. For those types of events there may be some facilitation/assistance funding available.

Rough estimate of funding you might require to achieve this art event

\$

Thank you and we look forward to hearing from you.
